

ZEYNEP ALTAYLI

zeynep@zeynepaltayli.com , (+4915158869000)

Oderberger Strasse 11, 10435, Berlin, Germany

EDUCATION

IPU Berlin (Class of 2025)

Master's in Psychology w/ Psychoanalytic Focus

Focus: epistemology, quantitative methods, developmental psychology, organisation and culture

Exeter University, Exeter, UK (Class of 2022)

Bachelor's in Psychology

Focus: creative writing, research methods, psychology and law, moral philosophy

Additional: excellence scholarship with 20% fee waiver

RELEVANT WORK EXPERIENCE

MoCon Lab (March 2025-December 2025) – Research / Master's Thesis

- Conducted research on affective neuroscience systems (GRIEF and PANIC) at the Motivational and Cognitive Neuroscience Lab
- Designed and ran behavioral and physiological experiments
- Analyzed experimental data using Python. Presented findings in colloquia and discussions

Deep Blue Srl. (April 2025-July 2025) – Innovative Human Factors Intern

- Conducted research on human-AI interaction in aviation systems, focusing on explainability, trust, decision-making under uncertainty, and gradual disempowerment
- Designed and evaluated experimental protocols. Analyzed behavioral data and produced research reports on human-AI teaming. Contributed to interdisciplinary discussions on transparency, safety, and human factors in AI systems

SELECTED PROJECTS AND ACTIVITIES

BLISS e.V (2023-present)

- [Member of Berlin Learning and Intelligent Systems Society.](#)
- Contributed to research paper and the accompanying dataset ([SCAM](#)) for typographic attacks, presented as a poster at CVPR 2025.

LLM & Cognitive Modeling Projects

- Built an LLM-powered [Anki add-on](#) enabling collaborative knowledge sharing between users
- Used word embeddings (GPT, Word2Vec) to model cognitive phenomena (e.g. synaesthesia)
- Developed [remora.space](#), an experimental platform for collecting and analyzing dream data as a large-scale cognitive dataset

Knowing Neurons (2024 – 2025)

- Contributed to science communication, translating neuroscience concepts to broad audiences
- Designed infographics, learning materials, and summer school curricula for children and adolescents

OTHER

Skills: python, experimental design, behavioural research, scientific writing and communication, BVA, SCR

Interests: (neuro)linguistics, epistemology, machine learning, AI alignment, decision-making, development

Languages: English (native), Turkish (native), Arabic (B1), German (A2+)
